us a call. J. L. COOPER & BRO. juztf DR. P. H. CARDWELL

AS THIS DAY EFFECTED AN ARthe future to supply all persons who may de-sire, from a single to a full set of teeth, on the Vulcanized Rubber Base,

n, and having been sufficiently tested to warrant its utility, we take pleasure in recommending it as being far preferable in many respects to any other base heretofore used. It can be used in many instances where all other materials fail. No one need, therefore, despair. Call on me, give me your work and I ill demonstrate these facts.
Remember that a full set of teeth on this method cost only half what they would on gold, and yet preferable in all respects. Respectfully, P. H. CARDWELL.

FARMS IN ILLINOIS.

900,000 ACRES

FARMING LANDS, BEST

FOR SALE BY THE Illinois Central Railroad Company,

IN TRACTS TO SUIT PURCHASERS. AT LOW PRICES. The Illinois Central Railread extends from Dunleith, in the north-western part of the State, to Cairo, in the extreme southern part, with a branch from Centralia, one hundred and thirteen miles north of Caire,

to Chicago, on the shore of Take Minhigan -altogether a length of 704 m les -and the land which is offered for

sale is situated upon either side of the track, in no instance at a greater distance than fifteen miles. Illinois. The rapid development of Illinois, its steady increase to population aid wealth, and its capacity to produce cheap food, are matters for wonder and admiration. The United States Commissioner of Agriculture estimates the amounts of the principal crops of 1864, for the whole country, as follows: Indian corn, \$30,581,403 bushels; wheat, 160,695,823 bushels; oats, 170,090,064 beshels; of which the farms of Illinois yielded

105,350,125 bushels of Indian corn; 50,571,173 bushels of wheat; and 24,273,751 bushels of eats-in reality more than one fourth of the corn, more than one fifth of the wheat, and almost one seventh of the cats produced to all the United States. Grain-Stock Raising. Pre-eminently the first in the list of grain-exporting States, Illinois is also the great cattle State of the Union. Its fertile prairies are well adapted by nature to the raising of cattle, sheep, horses and mules; and

in the imperiant interest of pork packing, it is far in advance of every other State. The seeding of these prairie lands to tame grasses for pasturage or key, offers to farmers with capital the most profitable results. The hay crop of Hillions in 1864 is estimated at 2,106,705 tons, which is more than half a million tons larger than the crop of any other State, excepting only New York. Cotton, Tobacco, Flax.

The cutivation of tobacco and cotton in southern lianous has been largely stimulated by the high prices which have prevailed since the outbreak of the rebellien. The crop of tobacco in this State, for 1861, is act down at 18,887,722 lbs.; and while the returns from the cotton-growing counties are incomplete, they are yet sufficient to show a large increase in the product—the most careful calculation placing the increase at fifty per cent. Sorghum is now classed among the staples of Illinois. The making of sugar from the beet is receiving some attention, and experiments upon a large reals will be made during the coming season. Hemp and flax are grown in almost every part of the State, and of a quality equal to the best European.

Fruit. Almost all the fruits of the temperate intitude are produced in Elineis. Peaches, pears, plums, strawberries, and every variety of garden vegetables, are produced in great abundance in the central and southern districts of the Elst, and are supplied to Chrago, St. Louis and Cincumsti, the excellent railway facilities insuring a quick market in all these places.

Inducements to Settlers. The attention of persons, whose limited means forbid the purchase of a homestead in the older States, is particularly invited to these lands. Within ten years the Hilloris Central Bailroad Company has sold 1,400,000 acres, to more than 20,000 actual settlerer and during the last year 204,422 acres—a larger aggregate of sales than in any one year since the opening of the road. The farms are sold in tracts of forty or eighty acres, suited to the settler with limited capital, or in larger tracts, no may be required by the capitalist and stock rather. The soil is of unsurpassed fertility; the climate is healthy; taxes are low; churches and schools are becoming abundant throughout the length and breadth of the State; and communication with all the great markets is made easy through radroads, canals and rivers.

PRICES AND TERMS OF PAYMENT. The price of lands varies from \$9 to \$15 and upwards per acre, and they are sold on short credit, or for cash. A deduction of test per cent from the credit price is made to those who purchase for cash. BKAMPLE:

Forty acres at \$10 per acre, on short credit; the principal one-quarter cash down-balance one, two and three years, at six per cont interest, in advance, each year. | INTEREST. | PRINCEPAL. | Payment in two years ... | 214 00 | 120 00 | Payment in two years ... | 12 00 | 120 00 | | Cash Payment.

100 00 The Same Land may be Purchased for \$360 Cash. Fall information on all points, together with maps, showing the exact location of Lands, will be furnished on application, in person or by lotter, to

LAND COMMISSIONER, Illinois Central R. R. Co., Chicago, Illinois.
